Basic Operations

Basic Settings

Basic settings allow you to set the BT, WLAN, WLAN hot spot, language, screen, volume, silent mode, night vision, and other features. To enter the basic settings screen, press and hold the **Menu/Back** key in the Live View mode.

Enabling the Device Match

1. Press the **Left** or the **Right** key to select **BT**, and then press the **Play/Pause/Confirm** key.
2. Press the **Play/Pause/Confirm** key again to enter **BT On/Off** screen.
3. Press the **Left** key or the **Right** key to select **On**, and then press the **Play/Pause/Confirm** key.
4. Press the **Left** key or the **Right** key to select **Device Match**, and then press the **Play/Pause/Confirm** key.
5. Press the **Left** key or the **Right** key to select **On**, and then press the **Play/Pause/Confirm** key.

Pre-recording

📝 Note

The pre-recording feature and pre-recording time must be enabled and configured via the programming software by your dealer.

To enter the pre-recording mode, press and hold the **Video Recording** key. To exit pre-recording mode, press and hold the **Video Recording** key again.

Marking Important Videos/Audios

- To mark the video/audio being recorded as "important", press the **Menu/Back** key when recording.
- To directly record a video/audio marked as "important", press the **Emergency** key. To stop recording, press and hold the **Emergency** key or press the **Video Recording** key.

Taking Still Photos While Recording Videos

To take still photos while recording videos, press the **Photo Taking** key.

Turning the Flashlight On or Off

To turn the flashlight on, press and hold the **Audio Recording** key. To turn the flashlight off, press and hold **Audio Recording** key again.

Turning the Product off Forcibly

If the product does not respond to any operation, press the **Audio Recording** key, the **Left** key, and the **Right** key simultaneously to power it off, and then power it on again.
